### *Summer Solstice*

*The Summer Solstice celebrates the joy, warmth and laughter of summer. The beginning of summer represents a time for purification, renewal of the self, a time to release the sadness, fears and pains from your life. A time for purification and renewed energy. The Summer Solstice is the longest day of the year. We see it as a time of vacations, play, celebration, fun, joviality, parties, and barbecues with family and friends at the beach or park. Days are longer which gives us more time to enjoy the sun and soak in its warmth. Come for the healing – come for the fun!*
